Stop! Thief!

The Bonanza Bros., Mike and Spike, two of the most famous investigators around, get a strange phone call one day. The caller doesn't reveal his name— he only asks the Bonanzas to meet him, at a

special time and place. They hesitate at first, but the caller's last words stick in their minds. "I'm certain that this will prove to be a very lucrative partnership..."

Mike and Spike arrive at the boarded-up front of what used to be a grocery store. "He said we should go on in," says Mike, and in they go, wondering just what's going on.

"Yo! Anybody here?" shouts Spike into the darkness. Suddenly a sharp click and a flash of light send the Bonanzas diving for cover.

"It's a set up!" they yell. They lift up their heads slowly to check the room. The TV has been mysteriously turned on, and a figure begins speaking to them.

"I can't give you my name. I'll just tell you that I'm a businessman with a problem. Many of my properties have been targets for robbery recently. I don't know why they've been hit, but it's become quite a costly situation. I need the two of you, the renowned Bonanza Brothers, to test my security forces. I have already had various

items— money, papers, and the like— placed randomly in ten of my establishments. Your job is to retrieve every single item. If you succeed, the reward will make Fort Knox look like pocket change. Good luck..."

The figure fades out, and the Bonanzas stare at a screen full of static. "Ya think this guy's on the up an' up?" Mike asks his brother.

"I tell ya what," Spike replies, "we're sure gonna find out!"

choice with the D-Button and press the Start Button to enter your selection.

1 Player/2 Player Game

If you choose the 1 Player game, you guide Mike (tall, red suit) through the establishments looking for items. In the 2 Player game, the second player controls Spike

(short, blue suit). Search every area of the building for items. Then get to the exit as fast as you can once you've collected them all.

Here you can set the difficulty level of game play, the number of Players (chances), and the functions of Buttons A, B and C on your Control Pad. You can also listen to any of the sound effects used in the game.

Press the D-Button up or down to highlight an option. Then press it left or right to see your choices.

By Hook or By Crook!

The Bonanzas have been hired to check up on a rich businessman's security teams. Guide Mike (and/or

Spike) through each building, using the D-Button to move about. Jump over obstacles. Watch for rakes or empty cans lying about— the guards aren't very tidy! Grab the flashing objects and carry them out to the exit. Shoot enemies with your stun gun every chance you get.

Some foes have shields that your ammo can't penetrate— wait around a corner and time your assault. Don't let them get the drop on you!

Screen Signals

Use the screen indicators to keep track of how you're doing.

While keeping your attention on the main game screen, take an occasional glance at the Map to see how many treasures remain. The Map also tells you how to get to the exit. (You can't pause the game to check the Map, because the word "Pause" appears in the Map window.)

The flashing objects on the Map are the items that you have to pick up. Each time you get hit by an enemy attack, you drop all of your items and lose one Player. Be sure to pick up the goods before continuing.

The Map also shows you where to find the exit. It is a bit tricky in some buildings, so look closely before taking off. When you arrive at the exit (at the top of the building), the Bonanza Blimp lifts you to safety. So far, so good!

Know the Score

You get points for each enemy you wallop. Each piece of evidence you pick up is worth 5,000 points. If you accumulate 200,000 points before the guards wipe out all your Players, you get an extra Player. Any time remaining after you've cleared a stage earns you points as well.

Game Over/Continue

You begin the game with 4 Credits. Each Credit is worth a certain number of Players (selected at the Options screen). Each time your Brother is hit by an enemy attack, his body flashes and you lose one Player. As each Credit is used up, the word "Continue" appears on your Main Game screen. To keep playing, press the Start Button before the timer reaches zero. When all Players and Credits are used up, the game ends.

Free as a Bird!

- Some enemy guards carry shields, so be sure to hide until they show their backsides. Attack from the rear!
- If an enemy is waiting just on the other side of a door that you want to go through, open it quickly and flatten him like a pancake!
- If a guard is standing just at the bottom or top of a staircase, stay on the stairs until he moves. You'll

know you've been made when you see the "!" mark appear above his head. If you're on the steps, he may not see you.

- When faced with several enemies at once, move to the front or back of the area. They don't move as quickly as you, and this is a good way to avoid their attacks!
- There is usually more than one way to get around the area you're playing. If one way is crowded with enemies, try another route. It may be free of guards!
- The puppies may be cute, but their bite is much worse than their bark. Zap them and get out of there!
